

Mr. Ishaan Dwivedi *Software Engineer II*

📍 Hyderabad ✉ imishu98@gmail.com ☎ +91 9479565110 🔗 <https://www.linkedin.com/in/ishaan-dwivedi/>

PROFILE

Innovative Software Engineer with **5+ years** of experience building scalable platforms, automation frameworks, and developer tooling. Proven track record in **cloud services, low-latency systems, AI-driven automation, and cost optimization**. Skilled at turning complex problems into elegant solutions while keeping reliability high and downtime low. Known for blending **technical depth with pragmatic execution**—and occasionally saving millions while doing it.

EDUCATION

Bachelor of Technology

Maulana Azad National Institute of Technology

2016 – 2020 | Bhopal

CGPA : 8.3

Higher Secondary Education

Aditya Convent School

2015 – 2016 | Jabalpur

Board Percentage : 95.4%

Lower Secondary Education

St. Aloysius Sr. Sec. School

2013 – 2014 | Jabalpur

CGPA : 10

TECHNICAL SKILLS

Languages — C, C++, X++, C#, Python, Java

Technologies — Low Code / No Code, .NET, Agentic AI, Creating Agentic flows / automation, Claude Code Plugin creation, MCP

Concepts — Prompt Engineering, LLM Integration, Agentic AI orchestration, Crash Analysis and Fixes, Copilot, Automation, Telemetry, Dump Analysis, WinDbg, Azure Profiler Analysis, Cache Memory, Agile Methodology

AWARDS

21 Under 21 : Girlscript

Girlscript

2019

Was among 21 under 21 for extraordinary technical and soft skills. Award was given during Girlscript Tech Summit, Nagpur by CEO - Anubha Maneshwar.

Also organized a Ideathon along with HCL Technologies in the Summit.

4rth Prize Version Beta Hackathon - ISTE MANIT

01/12/2017

First Prize : CODEBATTLE , Codathon

Technocrats Institute of Technology , Bhopal

2018

National Rank : 66 (online first round)

First Prize (offline final round)

AIR 22 & Gold Medalist NSTSE - Unified Council

01/12/2015

WORK EXPERIENCE

Software Engineer 2

Microsoft

08/2022 – Present | Hyderabad (Remote)

- Core member of **Dataverse - Agent Data Platform team** (Power Apps, Power Automate, Dynamics 365); SME for **Runtime Crash, Runtime Memory, Number Sequence etc** with queue ownership for critical runtime issues.
- Designed and implemented **nZDT (Near Zero Downtime) servicing APIs**, enabling seamless OS patching/upgrades and saving **\$300K/month**.
- Built **Batch AutoScaling APIs** to optimize runtime resource allocation, reducing costs by **\$117K/month**.
- Resolved **90+ CodeQL security vulnerabilities and polichack issues**, strengthening reliability and compliance.
- Developed **6 cross-team Claude CLI plugins & VSCode extensions** and **3 team-specific tools**, improving developer productivity.
- Created **Finance & Operations MCP** and **agentic AI automations** for proactive issue resolution, reducing manual effort while enhancing reliability and availability.
- Windows Server 2022 crash fix for the Internal Windows File Read API. This was impacting 7600+ prod environments as the extended support for the Windows Server 2012 and 2019 was over on Oct 2023.
- Reduced Crash CRI (customer reported incidents) from avg 11.5 per month to 8.2 per month.
- Reduced Number Sequence CRI from avg 9 per month to 4 per month.

SEP 2 , Software Developer

J P Morgan Chase and Co. India Pvt. Ltd.

08/2020 – 08/2022 | Bengaluru (Remote)

- Member of **JISU Cross-Connectivity Platform** for Equities, Credit, and E-Trading; enabled **ultra-low latency (90-110 ms)** order execution by integrating with internal OMS and Smart Order Router.
- Automated conversion of **customer spec docs to FIX protocol configs** using Python, eliminating manual intervention and saving **30-50 hours/month**.
- Owned and maintained **Public Finance instances** for MUNI offerings via Bloomberg, TradeWeb, and MarketAxess.
- Onboarded and managed **direct client modules** (BlackRock, Aladdin, Perform) based on custom specifications.
- Modernized legacy codebase by upgrading **27% of C code to C++**, improving maintainability and performance.
- Introduced **Poker-based sprint planning** to enhance Agile methodology, reducing **1-3 hours per sprint per team member**.
